

## Workshop A to Z of CBC

Workshop: A to Z of CBC

Date: 22 February 2018 (11 AM-2 PM)

Theme- Learning CBC through case studies

Workshop Objectives: This workshop will deal with almost all practical issues related to the Complete Blood Count (CBC). The clinical utility of older as well as newer parameters of modern-day haematology analyzers will be discussed. Along with discussions, there will be demonstration of cases with special reference to the cell counter as an aid in diagnosis. Difficulties and solutions for giving an accurate platelet count and newer platelet parameters will be stressed upon with example cases.

At the end of this workshop participants would be able to

1. interpret an automated CBC report confidently, be familiar with common technologies used in automated CBC analyzers and inherent limitations thereof
2. discuss significance of numerical parameters, histograms, scattergrams and flags.
3. fully understand CBC reports in clinical practice.

Faculty:

1. Dr Sudhir Mehta - Chief Resource Person & Moderator  
Senior Professor of Medicine  
SMS Medical College & Hospital  
Jaipur
2. Dr Swati Pai  
Head of Haematopathology  
Manipal Hospital  
Bengaluru

Registration:

Registration mandatory  
No Registration Fee  
Only 50 participants on First Come, First served basis  
No Spot registrations allowed
